environment & planning a

international journal of urban and regional research · volume 10 1978 · a pion publication

Editor A G Wilson
School of Geography, The University of Leeds, Leeds LS2 9JT, England

Algorithms editor R S Baxter
Building Research Establishment, Garston, Watford WD2 7JR, England

Book reviews editor N J Thrift
School of Geography, The University of Leeds, Leeds LS2 9JT, England

Editorial advisory board
R J Bennett, Department of Geography, University of Cambridge, Cambridge, England
D E Boyce, Dept of Civil Engineering, Univ. of Illinois at Urbana-Champaign, USA
R Bussière, Centre de Recherche d'Urbanisme, Paris, France
M Chatterji, School of Management, State University of New York, Binghamton, USA
D Cross, Department of Town and Country Planning, University of Manchester, England
R Funck, Inst für Wirtschaftspolitik und Wirtschaftsforschung, Univ. Karlsruhe, BRD
B J Garner, Department of Geography, University of NSW, Kensington, Australia 2033
P Gould, College of Earth and Mineral Sciences, Pennsylvania State University, USA
T Hägerstrand, Department of Geography, University of Lund, Sweden
P Haggett, Department of Geography, University of Bristol, England
B Harris, Department of City and Regional Planning, University of Pennsylvania, USA
B Hutchinson, Department of Civil Engineering, University of Waterloo, Ontario, Canada
R Johnston, Department of Geography, The University of Sheffield, Sheffield, England
A Mabogunje, Department of Geography, University of Ibadan, Nigeria
Sally M Macgill, School of Geography, The University of Leeds, Leeds LS2 9JT, England
Doreen B Massey, Centre for Environmental Studies, London, England
T O'Riordan, Department of Environment, University of East Anglia, Norwich, England
R Quandt, Department of Economics, Princeton University, USA
P H Rees, School of Geography, The University of Leeds, Leeds LS2 9JT, England
H W Richardson, Dept of Economics, Univ. of Southern California, Los Angeles, USA
A Rogers, IIASA, Schloss Laxenburg, Austria
A J Scott, Department of Urban and Regional Planning, University of Toronto, Canada
D W G Timms, Department of Sociology, University of Stirling, Scotland

Contents

Volume 10, number 1

Guest editorial/Announcement 1

The distribution of benefits in road-investment appraisal 3
J S Dodgson

An analysis of intraurban residential ownership patterns 17
J A Walsh

On traffic equilibrium, congestion tolls, and the allocation of transportation capacity in a congested urban area 29
T Puu

Spatial nonconvexities 37
H Mullally, G J Papageorgiou

Urban dynamics and urban cycles 43
D S Dendrinos

Prior information in spatial analysis 51
J Odland

Managing wilderness travel: a Markov-based linear programming model 71
J S deBettencourt, G L Peterson, Pai Kang Wang

A two-stage model of tenure mobility 81
C Jones, S Gudjonsson, J Parry Lewis

Energy price effects on metropolitan spatial structure and form 93
M C Romanos

Algorithm 4: Affine transformations 105
R S Baxter (referee K Perrett)

Reviews 111

Volume 10, number 2

Editorial 123

Trade-off surveys in planning: theory and application 125
D E Dowall, J B Juhasz

A method for computing Leontief multipliers from rectangular input-output accounts 137
A P Schinnar

Forecasting in urban and regional planning closed loops: the examples of road and air traffic forecasts 145
R J Bennett

Changes in the size distribution of settlements in England and Wales, 1801-1968 163
A D Cliff, B T Robson

The state and geographic process: a critical review 173
M Dear, G Clark

Reilly's challenge: new laws of retail gravitation which define systems of central places 185
M Batty

A note on planning theory 221
B Harris

Computer Program 1: A program for constructing age-sex disaggregated multiregional accounts (DAME) 225
M Plessis-Fraissard, P H Rees

Notes for authors on the style of presentation required for computer programs (software notes) 227

Letter to the editor 229

Reviews 233

Volume 10, number 3

Editorial 245

Social accounts and planning for changes in urban housing markets 247
J W Byler, S Gale

A neoclassical approach to urban systems diffusion 267
B A Ralston

Target rotation and normative policy analysis in urban ecology 275
E D Perle

The optimal pricing of undepletable externalities 287
N D Uri

The collection of national land-use statistics in Great Britain: a critique 295
G C Dickinson, M G Shaw

Estimating spatial-interaction models 305
R P Haining

A comment on "Evaluating the possibilities for exchanging regional input-output coefficients" 321
R G Thumann

Invariant distributional regularities of nonbasic spatial activity allocations: the Garin-Lowry model revisited 327
A P Schinnar

Algorithm 5: Gradient search on an *N*-dimensional surface 337
B Harris, R H Wilson, F Ducca (referee R S Baxter)

Letters to the editor 345

Reviews 351

Volume 10, number 4

Editorial 363

Sensitivity to distance and choice of destinations 365
P O'Sullivlan, B Ralson

Equilibrium values and dynamics of attractiveness terms in production-constrained spatial-interaction models 371
B Harris, A G Wilson

Dynamic properties of the 1966-1971 Canadian spatial population system 389
Kao-Lee Liaw

Transitivity, spatially separable utility functions, and United States migration streams, 1935-1970 399
T R Smith, C Clayton

The intraurban ecology of primary medical care: patterns of accessibility and their policy implications 415
P L Knox

Municipal planning in a mixed economy 437
A Khakee

Reviews 451

Volume 10, number 5

Special IIASA issue on migration and settlement

Guest editorial 469

Model migration schedules and their applications 475
A Rogers, R Raquillet, L J Castro

The spatial reproductive value and the spatial momentum of zero population growth 503
A Rogers, F Willekens

Job-search perspectives on migration behaviour 519
J R Miron

Regional multiplier analysis: a demometric approach 537
J Ledent

A dynamic linear-programming approach to the planning of national settlement systems 561
A Propoi, F Willekens

Optimization of rural-urban development and migration 577
R Kulikowski

Migration and settlement in Bulgaria 593
D Philipov

Volume 10, number 6

Editorial 619

Regional labour supply and national fluctuations: Canadian evidence for 1969-1975 621
G L Clark

Calibrating urban residential models 1: procedures and strategies 633
S H Putman, F W Ducca

Spatial diffusion processes 1: A model and an approximation method 651
M J Webber, A E Joseph

The relationship between timing of moves and choice of destination in stochastic models of migration 667
R B Ginsberg

Developer decisionmaking in the residential land acquisition process: a generalised model based on the Sydney experience 681
J A Harmer, D J Webb

Political spending in the United States: analyses of political influences on the allocation of Federal money to local environments 691
R J Johnston

Increment-decrement life tables: some further comments from a demographic-accounting point of view 705
P H Rees

Letters to the editor 727

Reviews 735

Volume 10, number 7

Spatial representation workshop special issue

Guest editorial 745

On searching for the most informative spatial pattern 747
M Batty, R Sammons

An empirical study of some zone-design criteria 781
S Openshaw

A highly disaggregated modal-split model—some tests 795
F Southworth

Freight distribution model predictions compared: a test of hypotheses 813
D E Pitfield

Trip-distribution calculations and sampling error: some theoretical aspects 837
H R Kirby, M N Leese

A regional analysis of the dependency between registered unemployment and the stocks and flows of notified vacancies 853
G Hyman, D J Palmer

Volume 10, number 8

Editorial 867

Consistency and commitment in the realisation of extended plans 869
A Coddington

Information minimisation, Markov transition, and dynamic modelling 879
M Nathanson

Distance deterrence and commodity values 889
I R Gordon

The problems of measuring power in Europe 901
M Laver

On the measurement of power: some reactions to Laver 907
R J Johnston

Performing land-capability evaluation by use of numerical taxonomy: land use and environmental decisionmaking made hard? 915
S I Gordon

Regional fiscal imbalance and growth differentials in Peninsular Malaysia 923
L H Wang

A statistical analysis of regional-unemployment series 937
C P A Bartels, M Booleman, W H Peters

Letters to the editor 955

Reviews 961

Volume 10, number 9

Editorial 981

The measurement of flows in social statistics: an example from Argentinian experience 983
A Minujin, L A Beccaria

Calibrating urban residential models 2: empirical results 1001
S H Putman, F W Ducca

Monetary evaluation of nuisance from road-traffic noise: an exploratory study 1015
F J Langdon

A model of zoning for a metropolis 1035
T J Kim

A performance test of the biproportional adjustment of input–output coefficients 1047
R C Hinojosa

The pilgrimage to Mecca: an explanatory and predictive model 1053
G Rowley, S A S El-Hamdan

Changes in corporate control in the British urban system, 1972–1977 1073
J B Goddard, I J Smith

Reviews 1085

Volume 10, number 10

Editorial 1099

Cumulative stress and cumulative inertia: a behavioral model of the decision to move 1101
J O Huff, W A V Clark

On the existence of optimal paths and cost surfaces in isotropic continuous transportation models 1121
T Puu

Gravity-model estimates and exact maximum-entropy solutions: their differences 1131
P B Slater

Understanding unbiased dimensions: the use of repertory-grid methodology 1137
C J Palmer

A note on the calibration of maximum-performance spatial-interaction models 1151
M J Baxter

Thoughts on the merits of transport-planning packages 1155
D A Hensher

Perceived distance and spatial interaction 1171
M J Taylor

Towards a more rational consideration of census areal units: daily urban systems in Britain 1179
M G Coombes, J S Dixon, J B Goddard, S Openshaw, P J Taylor

Interzonal migration: some historical tests of spatial-interaction models 1187
J C H Stillwell

Algorithm 6: The χ^2 test for predicted trip matrices 1201
D E Pitfield (referee S Openshaw)

Letters to the editor 1207

Reviews 1211

Volume 10, number 11

Editorial 1221

A mathematical theory of migration 1223
H Hotelling

Interstate migration and economic growth: a simultaneous equations approach 1241
P Gober-Meyers

On making flexible projections of age-specific net migration 1253
D B Pittenger

Toward more realistic allocation in location-allocation models: an interaction approach 1273
M J Hodgson

Optimum facility location by accessibility maximizing 1287
G Leonardi

Models of hierarchically dominated spatial interaction 1307
M F Goodchild, Mi Yee Carmen Kwan

A design model for allocating interrelated land-use activities in discrete space 1319
Ruth W Arad, J Berechman

Reviews 1333

Volume 10, number 12

Guest editorial 1343

Announcement 1344

Employees' experience of new factories in North East England; survey evidence on some implications of British regional policy 1345
A R Townsend, E Smith, M R D Johnson

A formulation of the Pareto distribution 1363
D Sahal

Housing type and tenure effects on reactions to road traffic noise 1377
S M Taylor, S Birnie, F L Hall

An efficient algorithm for solving the rectilinear location-allocation problem 1387
G Babich

Fertility differentials and their impact on population distribution and composition in Northern Ireland 1397
P A Compton

Urban planning of locational structures with due regard to user behaviour 1413
L Lundqvist
